Freedom of Information (FOI) disclosure log

This page details our responses to requests made to us under the Freedom of Information Act 2000 and Environmental Information Regulations 2004 that might be in the wider public interest, **beginning from May 2025**.

Responses and requests have been edited to remove personal information. Where that is not possible, we will not publish the response.

We try to include all of the supporting documents that we supplied in response to each request. In some cases these documents might be too large or held in a format that makes them unsuitable for publication on the website - in which case this will be noted in the response. Contact us if you want to see such supporting information.
